# Images

1.

Overview

- Tag
  - `<img>`

- The tag has got some attributes. The most important of them are:
  - src(the abbreviation of source)
  - alt(the abbreviation of alternative)
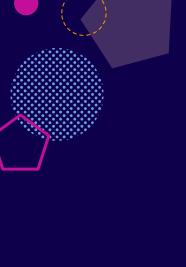

2.

The src attribute

The **src** attribute

⬤ It shows the source to the image.

⬤ If the image is in the same folder with index page

src="image.jpg"

⬤ If the image is in the images folder
src="images/image.jpg"

3.

The **alt** attribute
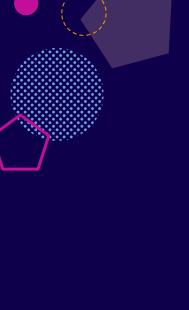

The **alt** attribute

- It shows an alternative text if the image can't load.

- Good idea is if the image is a picture of a cat the alternative text should be "A picture of a cat".

alt="Picture of a cat"

4.

Result

Result

Finally, it should be like this:

<img src="images/image.jpg" alt="Picture of a dog">

Thanks!
